REASONS FOR ALLOWANCE AND EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steve Terrile (32,946) on August 16, 2006.

The application has been amended as follows:

In claim 1 line 8 the terms "on a tangible medium" have been inserted after the second occurrence of the term "schedule".

In claim 19 line 12 the terms "on a tangible medium" have been inserted after the second occurrence of the term "schedule".

The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of the claims in this case is the inclusion of Periodically generating a work schedule and material delivery schedule for producing an item using a customer order and the current state of inventory, where the periodically generating occurs at fixed intervals and more than once during a manufacturing shift; and the determining the state of inventory and obtaining of the at least one outstanding customer order is performed immediately prior to the generating of the work schedule and material delivery schedule which are included in all the

independent claims, in combination with the other elements recited, which is not found in the prior art of record.

European Patent Application 0282697 A2, inventor Beasley, discloses a method for scheduling work and delivery of material, but does not disclose the claimed method which includes periodically generating a work schedule and material delivery schedule for producing an item using a customer order and the current state of inventory, where the periodically generating occurs at fixed intervals and more than once during a manufacturing shift; and the determining the state of inventory and obtaining of the at least one outstanding customer order is performed immediately prior to the generating of the work schedule and material delivery schedule which are included in all the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
